

Sabre Series

Mark IV LED Tube

The Sabre Series is the most efficient, technologically advanced LED tube on the market, delivering exceptional efficiency, performance and safety all backed by a five year product replacement warranty. The Sabre Series far outshines the competition.

Features and benefits

- **Latest generation 2835 LED chips.** Delivering up to 163 lumens per watt.
- **Latest Nano Tube technology.** Combines high grade polycarbonate materials with fibreglass fibres to create a durable, rigid, high grade enclosure with exceptional light transmittance and even distribution.
- **High Colour Rendering Index (CRI).** For full, vibrant colours in the workplace.
- **Provides instant flicker-free illumination.** Ideal for use with occupancy sensors and lighting controls.
- **Engineered for absolute safety.** Enclosed in an impact resistant Nano body. Each tube is internally fused and also supplied with a fused starter replacement.
- **Driver components sourced from the highest-grade manufacturers.** All supported by a five year replacement warranty
- **Tested to extremely high voltage.** To ensure continued operation under the toughest Australian conditions.

Specifications

Model	LT8-M4-06W-xx	LT8-M4-11W-xx	LT8-M4-14W-xx
Size	600mm	1,200mm	1,500mm
Power consumption*	6.32W	11.81W	14.61W
Output*	4,000K,	1,021 lm	1,910 lm
	6,500K	978 lm	1,919 lm
Efficiency	162 lm/W	162 lm/W	163 lm/W
CRI		≥80	
Beam angle		125°	
Lifetime rating		50,000 hours	
Warranty		Five years	

* Independently tested by an accredited (NATA MRA) laboratory.

Industries

Retail, hospitality, manufacturing, education and commercial offices.

Old lighting technologies

Fluorescent.
